Photos: Lucas Bergja

This 120-room 4-star apartment hotel on Boulevard Haussmann is part of a larger development of offices, a student residence, etc. called Haussmanns. The hotel forms the "proof" of this ensemble, facing the Philharmonie de Paris.

Sheathing here is the result of the very recent site, which runs alongside the gehry-techique re问我. The facade create a kinetic gradient of colors, from green - the color of the leaves of the beausault trees, to the color of the Paris sky.

A very tight site next to the Philharmonie
